Letter boxes

Australia Post requires that letter-boxes be 160 mm high, 230 mm wide, 30 mm front to back, and 900 to 1200 off the ground. We wonder how many of our boxes comply .

ATM skimming

There have been reports of skimming from ATMs and then using the information to withdraw cash from your account. What can we do ?

Get to know the look and feel of your ATM fascia. Inspect the front of the ATM for unusual or non-standard appearance. Scratches, marks, adhesive or tape residues could be indicators of tampering. Particularly pay attention to all of the touch and action points. (eg keypad, customer card entry slot, lighting diffusers)

for lots of up-to-date information.

What are the contents

of your wallet ? If lost, it helps to know about the plastic contained there-in. A photo copy of the bits will help.

Emergency !

There have been plenty of reasons for taking precautions lately, mostly floods. It always makes sense to be prepared for whatever the emergency may be. • Check that you have adequate household insurance cover. • Know which events may not be covered. • Know how to turn off power, gas and water supplies. • Store important documents, eg wills, title deeds, birth certificates etc in a safe place. Tell someone else where that is. • Record vital phone numbers, eg special relatives and friends. Use 000 for emergencies: fire, ambulance, poisons, and so on.
